

A thick black L-shaped frame is positioned on the left and bottom edges of the image, framing the central text.

CREATE AND RUN PYTHON PROGRAM

Objectives:-

- Develop first python program using IDLE
- Develop first python program using VS Code

Write your first Program

First.py

- `Print("Enter two numbers")`
- `A = int (input())`
- `B = int (input())`
- `C = a + b`
- `Print("sum is " , c)`

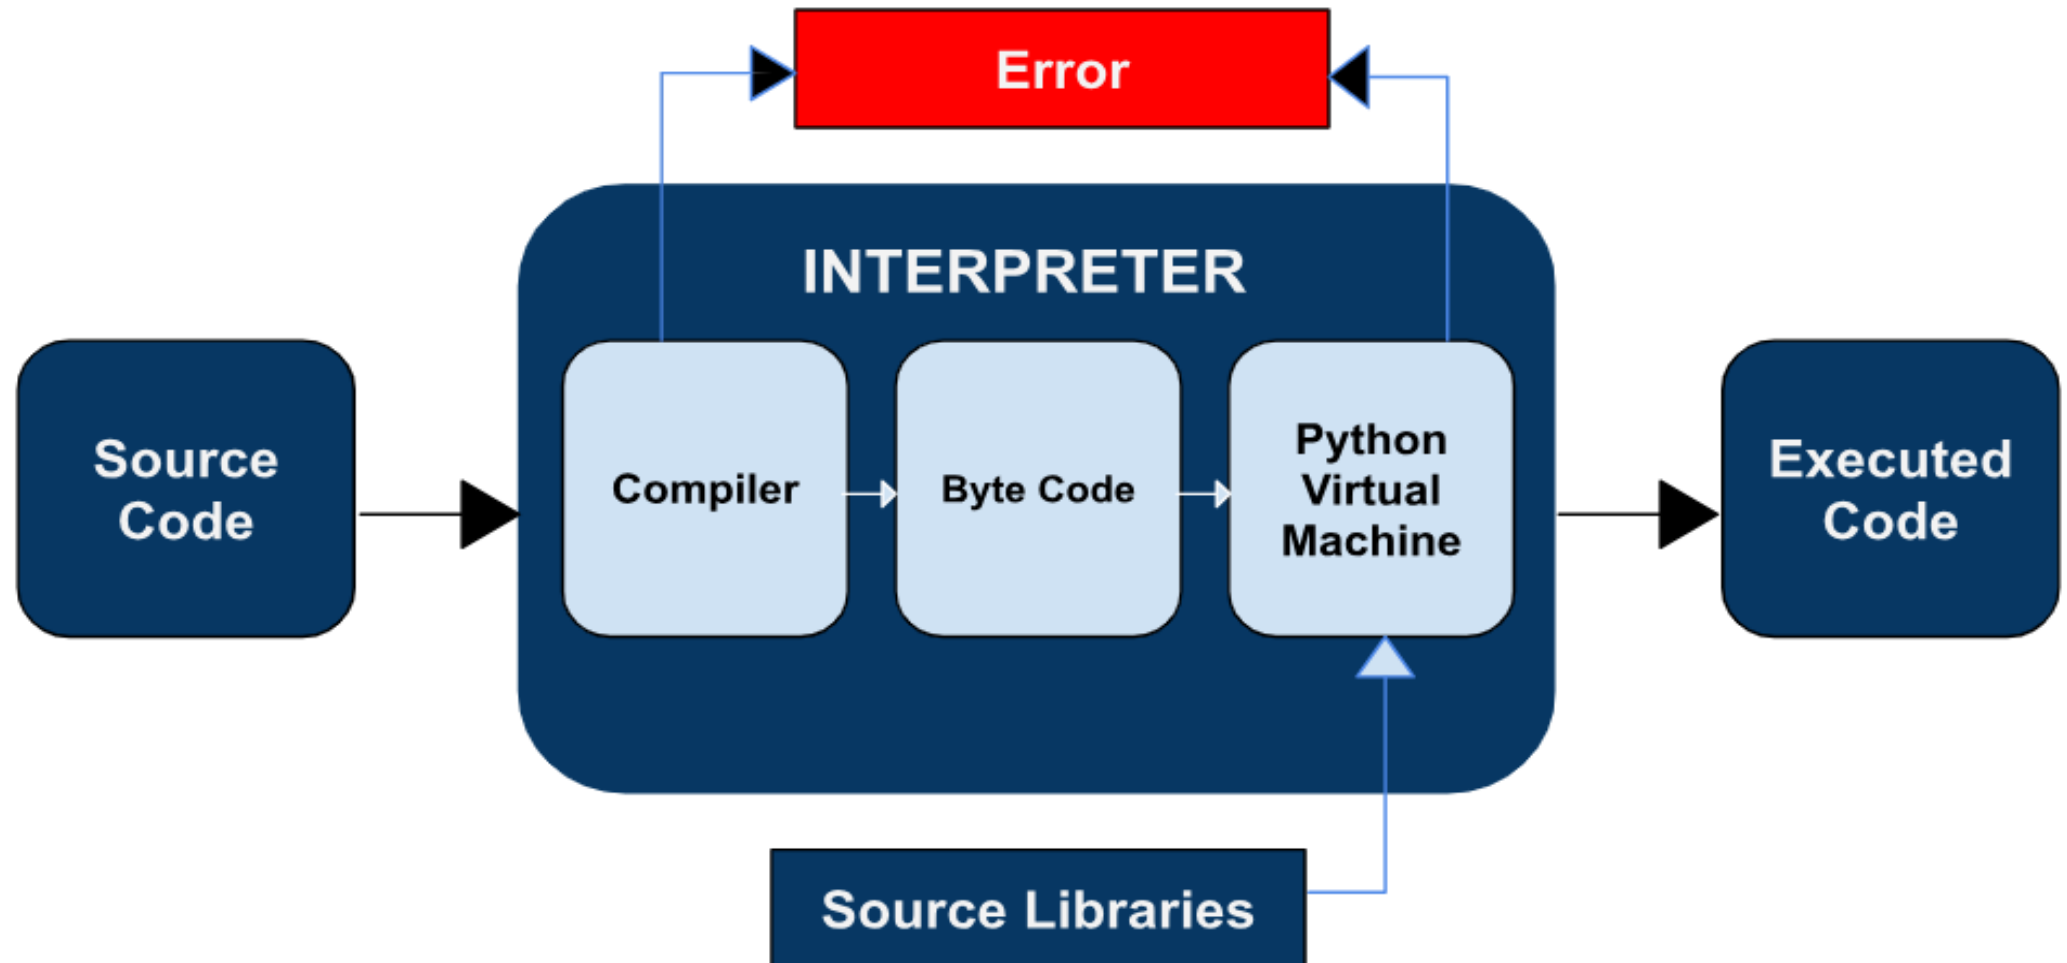

Using IDLE

- 1. Create source file `.py`
- How to Run?
- 2. open python file using IDLE
 - →Run module
 - →output will come on shell
- 3. Another option to run is from cmd/terminal
 - →python filename.py
 - →output will come on cmd/terminal

Using VS code

- 1. Create source file using vs code
 - →open vs code
 - →create new .py file
 - →write program
- 2. Run through vs code
 - →output will come on terminal

How to develop a software using Python?

THANK YOU!
